FCX performs

Reduced personnel and the need for technical application expertise are just two of the reasons that you need FCX. We can manage your supplies of process flow control products. Draw on our years of application expertise to reduce your inventory of flow control products, achieve product consistency and increase your productivity.

Some people talk about value and solutions.....we DELIVER them.

The FCX Advantage

- Our products are backed with consistent product application and support which will reduce your spares inventories.
- Our technical staff acts as an extension of your in-house technical & engineering staff
- We work closely with your maintenance staff to troubleshoot problems and identify misapplications
- FCX carries the widest range of process flow control products in the market.
- Broad geographic coverage....13 offices covering 26 states
- Flexible payment terms...credit, purchasing card, e-commerce enabled
- Competitive pricing...multi-year fixed and blanket pricing options
- 24x7x365 customer service...we are there when you need us
- Over \$10 million of inventory strategically located to serve you
- Reduced vendors lead to lower transaction costs for you.
- Consistent, quality material supplied (leads to reduced maintenance costs)
