FCXPERFORMANCE.COM

Sanitary Pump Repair

PUMP SOLUTIONS

FCX can engineer, assemble, test and repair sanitary positive displacement and centrifugal pumps. Our capabilities range from providing bare shaft pumps to complete skid mounted pump assemblies with variable frequency drives.

We carry an extensive inventory of positive displacement and centrifugal pumps in the surface finishes required by the life sciences market

TESTING & REPAIR

FCX Performance can disassemble, resurface, inspect, replace seals, and reassemble your damaged pump to factory specifications. Our wet test stand also allows us to document the pump meets your performance criteria.

- Inspection
- Warranty Repair
- Mechanical Services
- Electro-polishing Services
- Performance Test Stand
- Authorized Service Center

INVENTORY

We maintain a large inventory of centrifugal and positive displacement pumps from leading manufacturers

These pumps are designed to meet the needs of the pharmaceutical industry and are complete with electro-polished surfaces, material test reports, Class VI Elastomers, and performance test reports.

THE FCX ADVANTAGE

We understand that production downtime negatively impacts the bottom line of your operations. Quick turnaround on pumps and pump repairs is a critical factor in eliminating or minimizing that downtime. In response, we have stocked the largest amount of sanitary rotary lobe and centrifugal pumps on the east coast of the United States.

When a pump problem arises within your operations make FCX Performance your first call for fast and dependable pump-related products, services and solutions.

ABOUT FCX

FCX Performance is a leading provider of process, flow control accessories for a variety of corrosion resistant and high purity applications. Our application expertise and product range differentiates us from our competitors.

Besides pumps, our high purity product range includes valves, instruments, hose, tube, fittings, steam products, heat exchangers and a broad range of value-added services

Leading provider of process flow control solutions and products

34 locations covering 36 states and over 550 employees
